Gutter Guard Installation
Domestic, Commercial & Industrial**

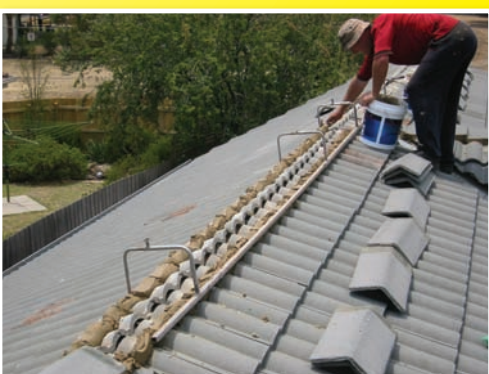

Be Your Own Boss with Jim's Roofing!

A 'Jim's Roofing' franchise is not 'employment' or 'subcontract' work. Franchisees collect all money and need not report earnings. The only requirements are to work safely, have proper vehicle signage and uniforms, and – above all – look after customers. And not forgetting, to enjoy your work.

Jim's customers can expect excellent service, but so to can our franchisees. Our ethos is one of franchisee service and franchisee power. All franchisees have the direct support of their Regional Franchisor who has hands on experience in the industry and acts as a personal business coach for each franchisee.

The main reason people give for joining Jim's is a change in lifestyle, a desire for flexible hours and less travel. Work for most franchisees is plentiful, so franchisees can work to the level they desire, be it 30 hours a week or over 50. This also allows you to achieve the income level you desire – your business can be as big as your imagination!
